

Medical Practice Acquisition Integration

Integration Workstreams

Medical practice integration areas we address

- ❖ Interim work processes
- ❖ Compliance
- ❖ Healthcare IT
- ❖ Coding and billing
- ❖ Reimbursement consolidation
- ❖ Credentialing
- ❖ Patient communication
- ❖ Contract consolidation and procurement rationalization
- ❖ Physician compensation
- ❖ Practice guidelines renewal

...together with standard business integration areas, including

- ❖ Human Resources
- ❖ Sales & Marketing
- ❖ Legal & Finance
- ❖ Facilities

We support medical practices with the integration program, tracking and reporting of the accurate status.

Our medical practice integration team will provide the knowledge and resources to navigate the merge of:

- ❖ Medical and administrative staff structures
- ❖ Business operations
- ❖ Procedure standards, processes and workflows
- ❖ Healthcare technologies
- ❖ Cultures

Having encountered different working styles in medical practices, we are able to navigate through the imminent changes, while you continue to provide your "first priorities" to patients.

Although the scope of work is large, our proprietary SSIM™ approach will guide you through the definition of objectives, Day One preparation, project planning, and the execution & monitoring of those projects.
